

Newsletter
April 2024

Welcome to the fourth and final issue of the **CHILD Front** newsletter, aiming to provide information about our activities in the field of judicial training in child-friendly justice.

Asynchronous e-learning platform

We are thrilled to unveil the launch of our asynchronous e-learning platform. Our primary goal is to attract 100 judges and prosecutors to enroll and

This innovative platform offers training modules in both Greek and English, catering to acting and trainee judges and prosecutors, and judicial trainers, specializing in child-friendly justice. With a focus on practical learning and flexibility, we have meticulously designed four distinct training packages:

- Train the Trainers - Judicial Training Methodology on Child-Friendly Justice
- Child-Friendly Justice in Criminal, Civil, and Administrative Proceedings
- Child Psychology and Child-Friendly Communication
- Personal Data Protection for Children Involved in Judicial Proceedings

Our asynchronous training format allows participants to engage with the material at their own pace, ensuring maximum accessibility and convenience. Moreover, our e-learning platform boasts a plethora of features, including:

- a Library, where trainees can find additional resources and project deliverables and
- a Forum, for online asynchronous discussions between trainers and trainees, as well as peer interaction.

Last, trainees can keep track of their own progress and will earn a certificate upon the successful completion of the training.

The platform will remain accessible for a minimum of three additional years, as its operation will be undertaken by the National School of the Judiciary (Greece), ensuring a sustained opportunity for continuous learning and professional development in the realm of child-friendly justice.

Welcome to the Child Friendly Justice Education Platform

The platform is addressed to judges from the civil, criminal, and administrative branches of justice, prosecutors, and trainee judges. The platform was designed with the co-financing of the European Union within the framework of the CHILD Front project "Child friendly justice in the Greek and Cypriot courts" (101046589 — CHILD front — JUST-2021-JTRA).

The training focuses on three different and one interdisciplinary subject: (1) criminal justice and children's rights in criminal proceedings, (2) civil procedures concerning or affecting children, (3) administrative procedures concerning children of migrant background, including unaccompanied minors, and (4) protection of children's personal data in judicial proceedings. In each category, you will find sections on child psychology and child-friendly communication.

Final conference and Policy Roundtable

We are proud to announce that the Conference on Transformative Judicial Training for Child-Inclusive Justice Systems, was successfully held on Tuesday, March 26, 2024, in Thessaloniki (Greece).

This landmark event brought together a diverse array of key stakeholders involved in the administration of juvenile justice from the four project countries (Greece, Cyprus, Bulgaria and Italy) as well as the EU. Participants included experts from the fields of justice, child psychiatry, child psychology, civil society representatives, policy makers, and representatives of national and European institutions. The convergence of such esteemed professionals facilitated robust discussions and insights into the broader issues, challenges, and promising practices related to child-friendly justice.

Distinguished speakers with extensive experience in the field provided
